TECTICS & STRATEGY (T & S)

SLOT

AUTO-UPGRADE ON

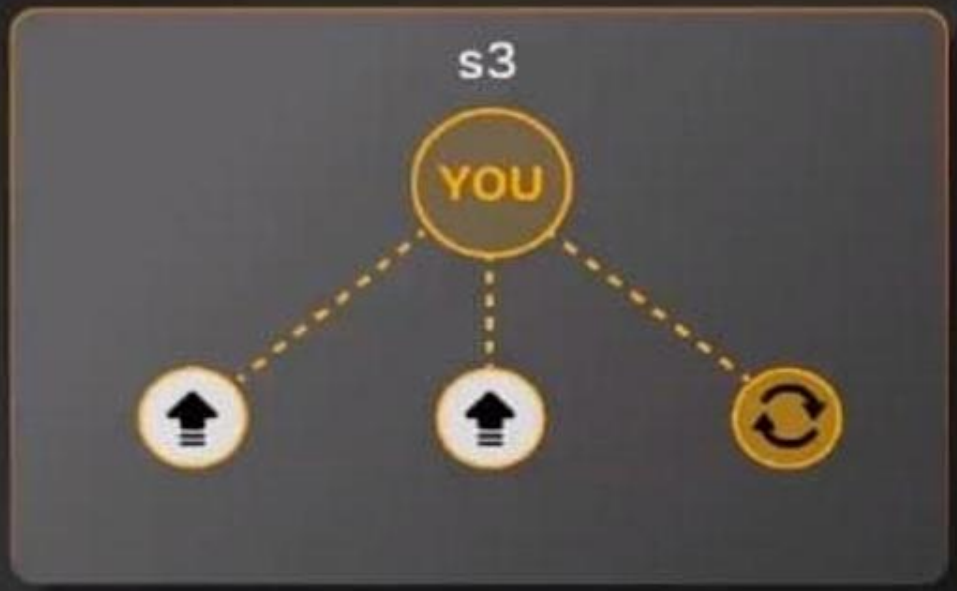

Thanks to Auto-Upgrades, you and your partners will not miss the profit and will increase the levels

Two payments are for auto-upgrade.
By default, auto-upgrade switched on at your top active level.
Except for the 12th, the topest one, of course.

Each next level costs exactly twice as much as the previous one, so you need to collect two payments, respectively. One payout is stored in a special smart contract for this, to which no one has access except you.

Then, as soon as another payout appears, the amount is combined, and the next level is instantly activated. Your downline partners will have the same, and thus your next level will fill up.
